Int J Gynecol Obstet, 1992, 37: 337–339
International Federation of Gynecology and Obstetrics

Subject Index

Volume 37

abdominal pain, endometriosis, ovarian cyst, pregnancy, 203
abortion, methotrexate, intrauterine pregnancy, leiomyoma, 297
abortion, sepsis, termination, peritonitis, evacuation, reproductive health and education, 193
acid-base status, twin pregnancy, small for gestational age, clinical status, 97
acquired gynetresia, management, eastern Nigeria, 105
acute colonic pseudo-obstruction, Ogilvie's syndrome, cesarean section, puerperium, complications, 47
adnexal torsion, laparoscopy, pregnancy, 51
antepartum nonstress test, prolonged pregnancy, prostaglandin induction of labor, 253
ascites, intravenous leiomyomatosis, clinico-pathological, 285

bicornuate uterus, uterine contractile activity, intrauterine pressure, muscle physiology, 7
broad ligament fibroid, giant fibroid, 207

CA-125, menstrual discharge, pelvic pain, endometriosis, 111
carcinoma in situ, colposcopy, human papillomavirus, uterus didelphys, 289
cecocystoplasty, tuberculous vescio-vaginal fistula, 127
cephalopelvic disproportion, maternal height, operative delivery, perinatal mortality, 169
cervical atresia, vaginal agenesis, endometriosis, peritonitis 301
cervical intraepithelial neoplasia, vaginal flora, human papillomavirus, 185
cervical pregnancy, uterine artery ligation, cervicotomy, ectopic pregnancy, 275
cervicotomy, cervical pregnancy, uterine artery ligation, ectopic pregnancy, 275
cesarean section, Ogilvie's syndrome, acute colonic pseudo-obstruction, puerperium, complications, 47
clinical status, twin pregnancy, small for gestational age, acid-base status, 97
clinico-pathological, intravenous leiomyomatosis, ascites, 285
colposcopy, human papillomavirus, carcinoma in situ, uterus didelphys, 289
complicated twin delivery, fetal interlocking, twins, 43
complications, grandmultipartity, incidence, Nigeria, 259
complications, Ogilvie's syndrome, acute colonic pseudo-obstruction, cesarean section, puerperium, 47
computer analysis of cardiotocogram, postterm pregnancy, fetal heart rate, 243
computer analysis of CTG, preterm fetuses, vibratory acoustic stimulation, fetal heart rate, 3
cytomegalovirus, hepatitis, pregnancy, 199

developing countries, maternal morbidity, obstetric complications, 77
Doppler ultrasound, hyperoxygenation, fetal hemodynamics, 211

eastern Nigeria, acquired gynetresia, management, 105
ectopic pregnancy, cervical pregnancy, uterine artery ligation, cervicotomy, 275
ectopic pregnancy, interstitial pregnancy, hysteroscopy, laparoscopy, ultrasound, 121
endometriosis, CA-125, menstrual discharge, pelvic pain, 111
endometriosis, ovarian cyst, pregnancy, abdominal pain, 203
endometriosis, vaginal agenesis, cervical atresia, peritonitis 301
endometrium, monocytes, macrophages, T-lymphocytes, monoclonal antibodies, 29
estradiol, gonadotropins, hemodialysis, progesterone, prolactin, renal transplantation, sex hormone binding globulin, testosterone, 19
evacuation, sepsis, termination, abortion, peritonitis, reproductive health and education, 193
exfoliated cervical cells, human papillomavirus, squamous cell carcinoma, subclinical HPV infection, polymerase chain reaction, 13

fetal heart rate, postterm pregnancy, computer analysis of cardiotocogram, 243
fetal heart rate, preterm fetuses, vibratory acoustic stimulation, computer analysis of CTG, 3
fetal hemodynamics, hyperoxygenation, Doppler ultrasound, 211
fetal interlocking, twins, complicated twin delivery, 43

giant fibroid, broad ligament fibroid, 207
gonadotropins, estradiol, hemodialysis, progesterone, prolactin, renal transplantation, sex hormone binding globulin, testosterone, 19
grandmultipartity, incidence, complications, Nigeria, 259
Guinea, maternal mortality, 89

hemodialysis, estradiol, gonadotropins, progesterone, prolactin, renal transplantation, sex hormone binding globulin, testosterone, 19
hemoglobinopathy, sickle cell disease, homozygous hemoglobin C disease, pregnancy outcome, 163
hemorrhage, uterine tamponade, placenta previa-accreta, 302
hepatitis, cytomegalovirus, pregnancy, 199
homozygous hemoglobin C disease, hemoglobinopathy, sickle cell disease, pregnancy outcome, 163
human papillomavirus, colposcopy, carcinoma in situ, uterus didelphys, 289

human papillomavirus, exfoliated cervical cells, squamous cell carcinoma, subclinical HPV infection, polymerase chain reaction, 13
human papillomavirus, vaginal flora, cervical intraepithelial neoplasia, 185
hydrocephalus, pregnancy, ventriculoperitoneal shunt, vaginal delivery, 271
hyperemesis gravidarum, pseudotumor cerebri, vomiting, 51
hyperoxygenation, fetal hemodynamics, Doppler ultrasound, 211
hysteroscopy, interstitial pregnancy, laparoscopy, ultrasound, ectopic pregnancy, 121

incidence, grandmultipartity, complications, Nigeria, 259
incompetent cervix, sonographic diagnosis, 179
infertility, pelvic tuberculosis, 115
interstitial pregnancy, hysteroscopy, laparoscopy, ultrasound, ectopic pregnancy, 121
intrauterine pregnancy, abortion, methotrexate, leiomyoma, 297
intrauterine pressure, bicornuate uterus, uterine contractile activity, muscle physiology, 7
intravenous leiomyomatosis, ascites, clinico-pathological, 285

laparoscopy, adnexal torsion, pregnancy, 51
laparoscopy, interstitial pregnancy, hysteroscopy, ultrasound, ectopic pregnancy, 121
leiomyoma, abortion, methotrexate, intrauterine pregnancy, 297
leiomyoma, vaginal, recurrence, 281

macrophages, endometrium, monocytes, T-lymphocytes, monoclonal antibodies, 29
malaria, placenta, pregnancy outcome, 247
management, acquired gynetresia, eastern Nigeria, 105
maternal height, cephalopelvic disproportion, operative delivery, perinatal mortality, 169
maternal morbidity, obstetric complications, developing countries, 77
maternal mortality, Guinea, 89
menstrual discharge, CA-125, pelvic pain, endometriosis, 111
methotrexate, abortion, intrauterine pregnancy, leiomyoma, 297
methotrexate, tubal pregnancy, 265
microalbuminuria, pregnancy-induced hypertension, prediction, 99
monoclonal antibodies, endometrium, monocytes, macrophages, T-lymphocytes, 29
monocytes, endometrium, macrophages, T-lymphocytes, monoclonal antibodies, 29
muscle physiology, bicornuate uterus, uterine contractile activity, intrauterine pressure, 7

Nigeria, grandmultipartity, incidence, complications, 259
normal pregnancy, sodium pump, 131

obstetric complications, maternal morbidity, developing countries, 77
Ogilvie's syndrome, acute colonic pseudo-obstruction, cesarean section, puerperium, complications, 47
operative delivery, maternal height, cephalopelvic disproportion, perinatal mortality, 169
ovarian cyst, endometriosis, pregnancy, abdominal pain, 203

pelvic pain, CA-125, menstrual discharge, endometriosis, 111
pelvic tuberculosis, infertility, 115
perinatal mortality, maternal height, cephalopelvic disproportion, operative delivery, 169
peritonitis, sepsis, termination, abortion, evacuation, reproductive health and education, 193
peritonitis, vaginal agenesis, cervical atresia, endometriosis 301
placebo, unexplained infertility, stress, thioridazine (Melleret), pregnancy rate, 37
placenta, malaria, pregnancy outcome, 247
placenta previa-accreta, uterine tamponade, hemorrhage, 302
polymerase chain reaction, human papillomavirus, exfoliated cervical cells, squamous cell carcinoma, subclinical HPV infection, 13
postterm pregnancy, fetal heart rate, computer analysis of cardiotocogram, 243
prediction, pregnancy-induced hypertension, microalbuminuria, 99
pregnancy, adnexal torsion, laparoscopy, 51
pregnancy, cytomegalovirus, hepatitis, 199
pregnancy, endometriosis, ovarian cyst, abdominal pain, 203
pregnancy, hydrocephalus, ventriculoperitoneal shunt, vaginal delivery, 271
pregnancy-induced hypertension, microalbuminuria, prediction, 99
pregnancy outcome, hemoglobinopathy, sickle cell disease, homozygous hemoglobin C disease, 163
pregnancy outcome, placenta, malaria, 247
pregnancy rate, unexplained infertility, stress, thioridazine (Melleret), placebo, 37
preterm fetuses, vibratory acoustic stimulation, fetal heart rate, computer analysis of CTG, 3
progesterone, estradiol, gonadotropins, hemodialysis, prolactin, renal transplantation, sex hormone binding globulin, testosterone, 19
prolactin, estradiol, gonadotropins, hemodialysis, progesterone, renal transplantation, sex hormone binding globulin, testosterone, 19
prolonged pregnancy, prostaglandin induction of labor, antepartum nonstress test, 253
prostaglandin induction of labor, prolonged pregnancy, antepartum nonstress test, 253
proximal tubal obstruction, schistosomiasis, 293
pseudotumor cerebri, hyperemesis gravidarum, vomiting, 51
puerperium, Ogilvie's syndrome, acute colonic pseudo-obstruction, cesarean section, complications, 47

recurrence, leiomyoma, vaginal, 281
renal transplantation, estradiol, gonadotropins, hemodialysis, progesterone, prolactin, sex hormone binding globulin, testosterone, 19
reproductive health and education, sepsis, termination, abortion, peritonitis, evacuation, 193

schistosomiasis, proximal tubal obstruction, 293

sepsis, termination, abortion, peritonitis, evacuation, reproductive health and education, 193
sex hormone binding globulin, testosterone, estradiol, gonadotropins, hemodialysis, progesterone, prolactin, renal transplantation, 19
sickle cell disease, hemoglobinopathy, homozygous hemoglobin C disease, pregnancy outcome, 163
small for gestational age, twin pregnancy, clinical status, acid-base status, 97
sodium pump, normal pregnancy, 131
sonographic diagnosis, incompetent cervix, 179
squamous cell carcinoma, human papillomavirus, exfoliated cervical cells, subclinical HPV infection, polymerase chain reaction, 13
stress, unexplained infertility, thioridazine (Melleret), placebo, pregnancy rate, 37
subclinical HPV infection, human papillomavirus, exfoliated cervical cells, squamous cell carcinoma, polymerase chain reaction, 13

T-lymphocytes, endometrium, monocytes, macrophages, monoclonal antibodies, 29
termination, sepsis, abortion, peritonitis, evacuation, reproductive health and education, 193
thioridazine (Melleret), unexplained infertility, stress, placebo, pregnancy rate, 37
tubal pregnancy, methotrexate, 265
tuberculous vescio-vaginal fistula, cecocystoplasty, 127
twins, fetal interlocking, complicated twin delivery, 43
twin pregnancy, small for gestational age, clinical status, acid-base status, 97

ultrasound, interstitial pregnancy, hysteroscopy, laparoscopy, ectopic pregnancy, 121
unexplained infertility, stress, thioridazine (Melleret), placebo, pregnancy rate, 37
uterine artery ligation, cervical pregnancy, cervicotomy, ectopic pregnancy, 275
uterine contractile activity, bicornuate uterus, intrauterine pressure, muscle physiology, 7
uterine tamponade, placenta previa-accreta, hemorrhage, 302
uterus didelphys, colposcopy, human papillomavirus, carcinoma in situ, 289

vaginal, leiomyoma, recurrence, 281
vaginal agenesis, cervical atresia, endometriosis, peritonitis 301
vaginal delivery, hydrocephalus, pregnancy, ventriculoperitoneal shunt, 271
vaginal flora, cervical intraepithelial neoplasia, human papillomavirus, 185
ventriculoperitoneal shunt, hydrocephalus, pregnancy, vaginal delivery, 271
vibratory acoustic stimulation, preterm fetuses, fetal heart rate, computer analysis of CTG, 3
vomiting, hyperemesis gravidarum, pseudotumor cerebri, 51
